

Licensing for Personal Licence Holders (On-Sales) SCQF Level 6

SQA Licensing Qualifications

What are the Licensing Qualifications?

These are Scotland's standards, based on the training framework drawn up by the National Licensing Forum for those involved in the on-sales sector. They have been developed to make sure that to comply with Licensing (Scotland) Act 2005, all training covers the three key areas.

They are necessary because of changes in the law which makes these requirements part of licensed trade responsibility – a regulatory requirement – to help keep Scotland safer and healthier.

The key areas are

- ◆ The licensing process in Scotland
- ◆ The responsible operation of licensed premises
- ◆ The effect of irresponsible operation on society and health

Employers will look for the relevant qualifications when they are appointing new staff for the licensed trade. They also expect their existing staff to have these qualifications.

Understanding and applying skills in these key areas are important because they help you work effectively in your present job and also prepare you for jobs within the sector which you may do in future. Developing your knowledge of the licensing

legislation helps you deal with today's rapidly changing world and improve your career prospects. That's also why employers value them.
